February 14, 2023

Subject: Response to Second Violation Notice, dated January 23, 2024 (A6405)

Mr. Edgerton,

Thank you for accepting my call on Tuesday, February 13, 2024. I want to congratulate you on the progression of your new role with EGLE. I have enjoyed the opportunities I have had working with your predecessors, Chance Collins and Dennis Dunlap. My working relationship with these gentlemen has been short, but they both have always demonstrated a great level of professionalism, and despite some recent challenges on my end, Chance has been a great resource to me. I look forward to building a positive working relationship with you as well.

LTi Printing, Inc. has been a family owned and community focused employer for almost 41 years. We remain committed to be a good steward of the environment throughout our manufacturing process and hope to remain relevant to the Michigan economy as an employer and vendor partner of choice. That commitment includes fully reaching compliance of our record-keeping requirements outlined in our permit to emit.

I am continuing in the pursuit of balancing the historical records of inventory, purchases, and usages of materials in 2023 as I prepare to submit the annual emissions report. Once completed, I am hopeful to complete a catch-up of the 2024 records by April 30, 2024. We are prioritizing internal ways to improve the inventory process and processing of the relevant data to speed up the calculation process.

I will be in touch with you later this year to discuss how an episodic hazardous waste disposal event may impact the calculation of the voc emissions. More details to follow as I prepare to notify the department of that event.

Thank you,

Benjamin R. Myers
