<b>RESOLVED COMPLAINTS:</b>		

**Inspected by:** Michelle Luplow

**Personnel present:** Pat, Shipping Supervisor

Rob Callison, Plant Manager (rob.callison@ruggedliner.com)

**Purpose**

Perform an unannounced, onsite compliance inspection to determine the operating status of Rugged Liner Plant 2 and to ensure compliance with Michigan's Air Pollution Control Rules.

**Inspection & Facility Background**

This facility was last inspected by the Air Quality Division (AQD) in 2015. PTI 121-96 for a varnish dip and oven, paint booth, and cold cleaner was voided at that time because the equipment had been removed.

At approximately 10:20 a.m. on April 19, 2022, I met with Pat, Shipping Supervisor, and Rob Callison, Plant Manager. I explained to them that I was there to get to a tour of the facility and to verify that this facility does not own or operate any equipment that requires a permit from the AQD.

R. Callison verified that Rugged Liner Plant 2 is a storage facility for Rugged Liner products, including tonneau covers, bed liners, bed mats, and wheel wells for customers like Ford, Chevrolet, Toyota, Nissan, Dodge, etc.

R. Callison and I made a walkthrough of the entire warehouse; I only observed office space, storage shelves, and storage space where Rugged Liner products are kept prior to shipping. There is no equipment at this site, exempt or otherwise.

**Compliance Statement**

Rugged Liner Plant 2 appears to be in compliance with AQD Rules at this time.
