RE: Violation Notice Written Response SRN: B5465, Oakland County

**Violation of Rule #1:**

We did hire an outside source to torch a piece of heavy steel. We have not been torching ourselves. All torch cutting tools have been put away, Air tanks have been disassembled. Shipping container units for torching are being disassembled per Waterford Township.

**Violation of PTI No. 398-75A EUPROCESS Section V Special Condition 1:**

Visible emissions were not done but have since been done. I am including a copy of that report along with pictures.

**Violation of PTI No. 398-75A EUPROCESS Section VI Special Condition # 2:**

The facility did keep monthly records of the amount of material processed, we just didn't keep records to Mr. Bogner's satisfaction. I do believe that we have straightened this out now.

**Violation of EUPROCESS Section III Special Condition 2:**

The facility maintained daily records of all watering/dust suppressant applications, again just not to Mr. Bogner's satisfaction. All watering and dust suppressant is done daily, three times per day to be exact. The times were as follows: 8:30 am, 12:30 pm & 2:30 pm. Mr. Bogner wanted it done a different way and hopefully we have an understanding now.

**Violation of EUPROCESS Section III Special Condition 1:**

Water Suppressant applications were maintained to the storage piles, just not in a satisfactory manner for Mr. Bogner.

Violation of EUPROCESS Section II Special Condition 2:

The facility DID NOT or HAVE WE EVER processed more than 25,000 Tons of Material during a 12 Month period. Mr. Bogner & I had a misunderstanding on the "Rolling Total Totals".

I believe we have straightened this out and the totals are now to his satisfaction.

If there should be any more questions or problems, please do not hesitate to contact me.

I appreciate your time.

Stacey Spurgeon
