CERTIFIED MAIL – RETURN RECEIPT

Ms. Caryn Owens
Environmental Analyst
Air Quality Division
State of Michigan
Department of Environmental Quality
120 West Chapin St.
Cadillac, MI 49601

REF: Violation Notice, SRN: B8707, Crawford County
Dated: June 17, 2014

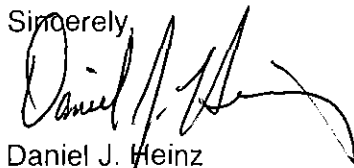

Dear Ms. Owens;

Your letter regarding a violation to PTI 140-04A, General Condition 2, has been received. On June 11, 2014, the referenced application was submitted to install two kilns originally included in the permit issued on September 2, 2005. Attached is a copy of the recently submitted application and transmittal letter.

The subject kilns were a continuance of the project described in the 2005 permit. Unfavorable market conditions caused delays beyond an approved extension period. In late 2013, when improving markets enabled resumption of the kiln installation, we failed to recall that the extension was limited to 18-months. Our staff recognized the oversight following your visit of May 15, 2014, and took prompt corrective action.

I regret that I was on assignment the week of your visit. However, I trust our staff satisfactorily accommodated you, and that the above actions are appropriate abatement. We appreciate your, and the Air Quality Division's cooperation and assistance. If you have any questions, or require additional information, please contact me at (989) 348-2871, extension 15.

Sincerely,

Daniel J. Heinz

Ref: Air Pollution Control Permit to Install #140-04A

On September 2, 2005, Springs Window Fashions, LLC, 2669 Industrial Drive, Grayling, MI (SRN #8707) was issued air pollution control permit to install # 140-04A for the installation of four steam heated kilns to dry lumber prior to other woodworking processes (EU-Kilndrying, SV-20, SV-21, SV-22 and SV-23). As of March 2, 2007, Springs Window Fashions, LLC had completed construction of two of the four kilns permitted. Construction of the remaining two kilns was delayed due to market conditions that affected the demand for our products. An 18 month extension was requested and granted for the completion of the kilns, but market conditions had not improved, so the project was put on hold.

As of this date, demand for our products has increased and we are requesting a new permit to install the remaining two kilns covered in the original permit to install # 140-04A.

If you have any questions, or require additional information, please contact me at (989) 348-2871 at extension 15.

Sincerely,

Daniel J. Heinz
