SUBJECT: Self-initiated inspection of a minor source.		
RESOLVED COMPLAINTS:		

On August 24, 2015, I conducted an unannounced, self-initiated, level 2 inspection of Better-Bilt Cabinet Co. (Better-Bilt), located at 99 Cass Avenue in Mount Clemens, Michigan. The purpose of this inspection was to determine the facility's compliance with the federal Clean Air Act, Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended.

I arrived on site around 2:30 PM and introduced myself to Mr. Aldo Valitutti. I provided Mr. Valitutti with my contact information and a copy of the pamphlet "DEQ Environmental Inspections: Rights and Responsibilities." Mr. Valitutti provided a site walkthrough.

According to Mr. Valitutti and as evidenced by the site walkthrough, the facility does not perform manufacturing. All cabinetry is provided by the distributor. A small paint booth on site appears to be exempt per R 287(c) and appears to be used for storage only.

### Conclusion

Based on the AQD inspection, it appears that Better-Bilt is in compliance with the federal Clean Air Act, Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended.
