

DEPARTMENT OF ENVIRONMENTAL QUALITY  
 AIR QUALITY DIVISION  
 ACTIVITY REPORT: Self Initiated Inspection

M409238357

FACILITY: DETROIT LEAD PIPE WORKS INC		SRN / ID: M4092
LOCATION: 7001 HYLDON, DETROIT		DISTRICT: Detroit
CITY: DETROIT		COUNTY: WAYNE
CONTACT:		ACTIVITY DATE: 01/19/2017
STAFF: Katherine Koster	COMPLIANCE STATUS: Compliance	SOURCE CLASS: Minor
SUBJECT: Self initiated		
RESOLVED COMPLAINTS:		

On 1/19/17, I arrived at the site of Detroit Lead Pipe Works. A search of the DLEG corporate data base indicates that a business by the name of Detroit Lead and Pipe at the same address was automatically dissolved in 1986. The building was locked and did not appear to be in use. The prior inspection in 2007 indicates that the site was being used for storage by Pittman Tire and Associates next door, at 6335 Lyndon. However, a review of the DLEG corporate database indicates that company has closed as well. While the 2007 inspection report states that the inspector "peeked inside" of the building, it does not state whether he verified that the two lead melting pots, C-9362 and C-9363, had been removed. As such, the Wayne County installation permit will remain active as long as their is potential that the equipment is still on site.
