Dear Logan Shaw:

VIOLATION NOTICE

On June 9, 2023, the Department of Environment, Great Lakes, and Energy (EGLE), Air Quality Division (AQD), conducted an inspection of the Coffee Beanery LTD (The Coffee Beanery) located at 3429 Pierson Place, Flushing, Michigan. The purpose of this inspection was to determine The Coffee Beanery's compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the Air Pollution Control Rules; and the conditions of Permit to Install (PTI) number 340-90A.

During the inspection, staff observed the following:

Process Description	Rule/Permit Condition Violated	Comments
Coffee roasting oven	Rue 201	Replacement of original coffee roaster with a new unit, without first obtaining a permit to install.

During this inspection, it was noted that the Coffee Beanery had installed and commenced operation of unpermitted coffee roaster at this facility. The AQD staff advised The Coffee Beanery on June 20, 2023, that this is a violation of Rule 201 of the administrative rules promulgated under Act 451.

A program for compliance may include a completed PTI application for the new coffee roaster. An application form is available by request, or at the following website: www.michigan.gov/air.

Be advised that Rule 201 requires that a permit be obtained prior to installation, construction, operation, reconstruction, relocation, or alteration of any process or process equipment which may be a source of an air contaminant.
