Dorothy Bohn
MDEQ-AQD
Kalamazoo District

Ms. Bohn

In response to receiving a violation notice regarding Klett Recycle (SRN N6804) having performed work without submission of a relocation notice at asphalt plants in Paw Paw and Kalamazoo, as stated in our meeting, we did do the work inquired about. At both locations we were given the opportunity just days in advance of having to mobilize. We were in Kalamazoo twice (8/20 & 10/1), and Paw Paw once (10/8). We were at these sites for 5 days, 7 days, and 4 days, dates listed are the invoice dates, indicating the work would have been completed the week before.

Going forward, we are researching, through a consultant, the options of changing, or modifying, or voiding our permit (or some hybrid mix thereof); as discussed in our meeting at your district office to avoid this in the future.

Sincerely yours,

Dale Klett
