RESOLVED COMPLAINTS:		

A site visit was made at 35521 Industrial Road, Livonia, for the purpose of performing an inspection of Innovative Leather Technologies (N7099), operating under General PTI No. 50-02 for a parts coating line.

Innovative Leather Technologies is no longer operating at this address. The current occupant is Nassau Candy, which is a candy wholesaler based in New York. I met with David Geiringer, Operations Director, who allowed me to walk through the facility to verify that the equipment permitted under General PTI No. 50-02 had been removed. There was no coating equipment on site, and I did not notice any current operations at the facility which would require air permits. Nassau moved into this address 8 or 9 years ago, and this facility is used as the company's Midwest distribution center; no production is performed on site.

General Permit to Install No. 50-02 will be voided.
