RE: Norwich 28 / State PTI 283-03A

Dear Chris,

In your letter dated 8/2/2018 you requested a written response addressing the issue of annual gas analysis for the Norwich 28 facility. The following is intended to satisfy this request.

Savoy had a gas sample taken and analyzed on July 14, 2018. This analysis was submitted to your office. In addition, a previous gas sample taken July 31, 2008 was also submitted. We have scheduled a follow-up sampling and analysis for June of 2019. We intend to continue this regular sampling as spelled out in the PTI.

Should you require further information regarding this matter please contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Dylan Foglesong". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

Dylan Foglesong

Cc: Ms. Jenine Camilleri
