Dear Mr. Rokos:

VIOLATION NOTICE

On July 11, 2018, the Department of Environmental Quality (DEQ), Air Quality Division (AQD), conducted an inspection of Savoy Energy LP located at 6766 East Polk Street, Big Rapids, Michigan. The purpose of this inspection was to determine Savoy Energy LP's compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the Air Pollution Control Rules; and the conditions of Permit to Install (PTI) number 283-03A.

During the inspection, staff observed the following:

Process Description	Rule/Permit Condition Violated	Comments
Glycol Dehydrator (EUDEHY)	PTI No. 283-03A, EUDEHY, Special Condition V.1	Gas composition analysis is not being conducted annually.

During this inspection it was determined that Savoy Energy LP did not conduct an annual gas composition analysis from 2009 through 2017. This is a violation of the testing requirement specified in PTI No. 283-03A, EUDEHY, Special Condition V.1 which requires the analysis to be completed annually. Special Condition V.1 also allows for an alternative sampling frequency if requested by the permittee and approved by the AQD District Supervisor. No formal request has been received by the AQD.

Please initiate actions necessary to correct the cited violation and submit a written response to this Violation Notice by August 23, 2018 (which coincides with 21 calendar days from the date of this letter). The written response should include: the dates the violation occurred; an explanation of the causes and duration of the violation; whether the violation is ongoing; a summary of the actions that have been taken and are proposed to be taken to correct the violation and the dates by which these actions will take place; and what steps are being taken to prevent a reoccurrence.
