AIR QUALITY DIVISION
ACTIVITY REPORT: Scheduled Inspection

N751029750

FACILITY: METAL LINE CORP		SRN / ID: N7510
LOCATION: 1965 PINE CREEK RD, MANISTEE		DISTRICT: Cadillac
CITY: MANISTEE		COUNTY: MANISTEE
CONTACT:		ACTIVITY DATE: 06/10/2015
STAFF: Caryn Owens	COMPLIANCE STATUS: Compliance	SOURCE CLASS: MINOR
SUBJECT: Scheduled inspection - Site moved prior to 4/8/08, and the new current site at 237 Renaissance Dr. no longer uses an oven at the location. Requesting to void PTI #199-05.		
RESOLVED COMPLAINTS:		

On June 10, 2015, Caryn Owens of the DEQ-AQD conducted a scheduled inspection of Metalline Corporation (SRN: N7510) located at 237 Renaissance Drive in Manistee, Michigan (formerly located at 1965 Pine Creek Road in Manistee, Michigan). At the former location on Pine Creek Road, the facility had a minor source permit to install (PTI) #199-05 for a propane fired, burn-off oven used to clean motor parts in the reconditioning process. The previous inspection for the facility indicated that the burn-off oven associated with PTI #199-05 had not been installed at the new facility and doesn't know if it will be installed. At that time, AQD staff informed the secretary at the facility that the PTI only applied to the Pine Creek Road facility and a new permit would be needed prior to installing the burn-off oven at the Renaissance Drive facility.

The facility moved to the Renaissance Drive location at least 7 years ago, and since that move they no longer recondition parts or use a burn-off oven. The facility is strictly machining parts for customers and have no ovens located at the facility. Additionally, the company has no plans to install any ovens in the future. Based on this information, AQD staff will void PTI 199-05, and no further action is necessary at this time.
