Air Quality Division
Warren Office

To Whom It May Concern;

On August 30, 2019, September 13, 20, and 27, 2019, October 16, 2019, and August 7, 2020 Premier Finishes was in violation. Causes were due to lack of qualified manpower available. Paint logs violation has been corrected. All paint logs are up to date and were emailed to Mr. Elmouchi on August 11, 2020.

All filters are installed and maintained properly. The grates on big spray booth needs removal of excessive paint buildup. We are in the process of acquiring the proper equipment to clean off excessive paint buildup. This should be completed by October 31, 2020.

Concerning the dampers, we are currently being scheduled for a company to come out to repair the damper. There is no current completion date because due to COVID-19 all repairman are currently backlogged in appointments. Also, we don't know exactly what the repairs entail, therefore no completion date is forthcoming at this time.

Sincerely,

Brian Borowski

Premier Finishes, Owner
