The purpose of this inspection was to determine Padnos Grandville Recycling's compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); and the administrative rules.

During the inspection, staff observed the following:

During this inspection, it was noted that Padnos Grandville Recycling had installed and commenced operation of unpermitted process equipment at this facility. The AQD staff advised Rob McCormick on December 11, 2014, that this is a violation of Act 451, Rule 201.

A program for compliance may include a completed PTI application for the process equipment. It has been noted that Padnos Grandville Recycling has already submitted two permit to install applications. Therefore, an additional compliance plan will not be necessary at this time.
