STAFF: Julie Brunner	COMPLIANCE STATUS: Compliance	SOURCE CLASS: MINOR
SUBJECT: Scheduled inspection - GPTI No. 31-15 for an anhydrous ammonia tank. Tank not installed.		
RESOLVED COMPLAINTS:		

On July 19, 2017, I conducted a scheduled inspection of Fromm Farms (P0590) in Owosso. The farm is located north of Owosso. They have a General Permit to Install (GPTI) No. 31-15 for an anhydrous ammonia tank issued February 23, 2015. The last inspection of the facility was on 6/29/2016 and the tank had not been installed.

Arrived: 9:20 am

Departed: 9:30 am

Weather: 75°F, W 3 mph, UV index 2 low

I met with Mr. Jeff Fromm (member) who informed me that the anhydrous ammonia tank was not installed. I let him know that GPTI No. 31-15 needed to be voided and the paperwork would be sent to him. When he is ready to install an ammonia tank, another application for a GPTI for an anhydrous ammonia tank can be submitted.

I also left him a book of permit exemptions for his reference.

Summary:

I requested on July 19, 2017 that GPTI No. 31-15 be voided.
