Dear Mr. Konanahalli:

SRN:P0705, Oakland County

In response to the violation we were made aware of on April 29, 2016 after your visit on March 21, 2016, please see enclosed Permit-to-install application. This violation occurred because we were not even aware of the need to file this application prior to the installation of our sulfuric acid cleaning and black oxide coating process. The violation would have occurred when the process was installed in January 2016. As far as I can tell from the Violation Notice, the enclosed PTI application should right this violation. Please advise if there is anything else that needs to be done to bring our facility into compliance.

Sincerely,

Joshua Casillas
