July 14, 2023

We were visited on June 20, 2023 and were cited for our sand screeners and our two natural gas fired roasters. We were having an issue with our dust collector which has been resolved. We believe we are exempt from R336.1282 2(a) as per the exemption handbook requiring permit for over 10 million BTU. Our equipment is well below 10 million Btu's. Roaster 1 is 8.5 million btu and roaster 2 is 4.6 million btu.

Both Roasters are portable units that are not in a fixed location.

In reference to the screeners, we are exempt as per the exemption handbook:

(t) Equipment for the mining, loading, unloading, and screening of uncrushed sand, gravel, soil, and other inorganic soil-like materials.
