SUBJECT:		
RESOLVED COMPLAINTS:		

At 1:30 P.M. on May 15, 2014, Air Quality Division (AQD) staff Dave Morgan conducted an unannounced scheduled inspection of Schupan Beverage Recycling located at 3710 Roger B Chaffee Memorial Blvd in Wyoming, Michigan. The purpose of the inspection was to determine the facilities compliance with state and federal air pollution regulations. Accompanying AQD staff on the inspection was Troy Lincomfelt, Plant Manager. A DEQ Inspection Brochure was presented at the beginning of the inspection.

FACILITY DESCRIPTION

This Schupan facility recycles plastic, metal, and glass beverage containers. The facility consists of various shredding machines used to diminish the size of the material.

COMPLIANCE EVALUATION

This facility consists of the following equipment:

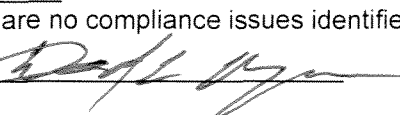

- (1) Plastic bottle cap shredder - vented internally.
- (6) Plastic bottle shredders - These units are vented internally through bag filters. There are about nine bags per unit.
- (1) Metal can shredder - This unit is fully enclosed and shredded material is collected in a 40,000 pound semi-trailer.
- (2) Glass crushers - These are used to break apart glass bottles.

All equipment is run with electric motors. No solvents, paints or combustible fuels are used at the facility.

SUMMARY

There are no compliance issues identified at this time.
