AIR QUALITY DIVISION
ACTIVITY REPORT: Self Initiated Inspection

U6314440925394

FACILITY: KVF – Troy Corp		SRN / ID: U63144409
LOCATION: 348 Park Street, Troy		DISTRICT: Southeast Michigan
CITY: Troy		COUNTY: OAKLAND
CONTACT: Mark Torzy, Owner		ACTIVITY DATE: 06/03/2014
STAFF: Rebecca Loftus	COMPLIANCE STATUS: Compliance	SOURCE CLASS:
SUBJECT: Inspection: exempt equipment pursuant to Rule 282(b)(i).		
RESOLVED COMPLAINTS:		

On June 3, 2014, I, Rebecca Loftus, from the Department of Environmental Quality's (DEQ), Air Quality Division (AQD), conducted a self-initiated inspection KVF – Troy Corp, located at 348 Park Street, Troy, Michigan. The purpose of this inspection was to determine the facility's compliance with the Federal Clean Air Act, Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act of 1994, PA 451, as amended, and Michigan's Air Pollution Control Rules.

I arrived on-site at 12:25pm, and met with Mr. Mark Torzy, Owner. Mr. Torzy explained that KVF receives unfinished metal parts and makes them smooth by using a ceramic media or rubbing them against other metal pieces. These parts can be rinsed in water and/or dried in one of two natural gas cob dryers. Once the parts are "polished", they are sent to various automotive stamping plants. There are no coatings, solvents, or degreasers at the facility. The building does have a couple of small natural gas space heaters. The natural gas dryers and space heaters appear to be exempt from obtaining a PTI pursuant to Rule 282(b)(i).

Based on my observations and the information provided during the inspection, at this time, KVF – Troy Corp appears to be in compliance with the Federal Clean Air Act and Michigan's Air Pollution Control Rules.
