DEPARTMENT OF ENVIRONMENTAL QUALITY
AIR QUALITY DIVISION
ACTIVITY REPORT: Self Initiated Inspection

U70150012928247

FACILITY: Anterior Quest	SRN / ID: U701500129
LOCATION: 5224 Rich Street	DISTRICT: Grand Rapids
CITY: Allendale	COUNTY: OTTAWA
CONTACT: Dennis Jonker	ACTIVITY DATE: 01/06/2015
STAFF: April Lazzaro	COMPLIANCE STATUS: Compliance
SUBJECT: Announced, unscheduled inspection.	SOURCE CLASS: minor
RESOLVED COMPLAINTS:	

Staff, April Lazzaro and Joy Taylor-Morgan arrived at the facility to conduct an announced, unscheduled inspection of the facility and met with Steve Luke, Dennis Jonker and Jordan Jonker. They were provided with the DEQ Environmental Inspections: Rights and Responsibilities brochure and its contents were discussed.

This inspection was conducted in follow-up to an initial meeting that took place on December 1, 2014. Several staff of the DEQ had attended, but due to time conflicts, I had to leave early and was unable to conduct a physical inspection of the facility.

This facility basically takes dental office waste water and processes it in order to remove the mercury and amalgam. The water is then discharged to the City of Allendale and the solid waste is sent to a facility for recycling. In the near future, the facility will no longer discharge to the City of Allendale and will use the treated water in a product designed and manufactured in house.

The actual process to treat the water is proprietary and confidential. However, it was identified that there are regulated air contaminants utilized in the process in small amounts.

Staff has requested that the facility submit a Rule 278a Permit to Install Exemption determination by February 6, 2015. Based on AQD review of materials in use at the facility, compliance is anticipated.

The facility will be considered in compliance at this time.
