SUBJECT: Unannounced, self-initiated inspection.		
RESOLVED COMPLAINTS:		

Staff, April Lazzaro arrived at the facility and saw Mr. Mario Corne working on a car door at the entrance to his shop. I approached him, and introduced myself, and asked if he was painting and using a fan to blow the exhaust out the back wall. He indicated he was, and he showed me the fan and wall cutout he is using. The access door is on a hinge so it only needs to be open when he is actively painting.

I asked him if he could make a filter to capture any paint particles from being sprayed out the fan, and he said he could. I did not see any evidence of paint accumulation outside this area.

Mr. Corne stated he would install the filter this weekend, and be done by Monday. This is acceptable.
