RESOLVED COMPLAINTS:		

Background

Conrad Poultry SRN: M3551 U741611695 was a confined animal feeding operation located at 7473 Lapeer Rd, Goodells, Michigan. Conrad Grain was located in a primarily residential/rural area. The facility was inspected on Friday, October 14th, 2016 by Tyler Salamasick, Environmental Quality Analyst of the Michigan Department of Environmental Quality, Air Quality Division. The intent of the inspection was to determine the facility's compliance with the Federal Clean Air Act Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act of 1994, PA 451, as amended, Michigan's Air Pollution Control Rules. Conrad Grain formerly held permit No. 586-78 for a chicken incinerator.

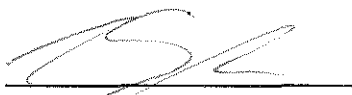

Inspection

Site arrival was at 11:59am, Friday, October 14th, 2016. The permitted equipment appears to have been removed. I entered the facility and spoke with Heather Brown. I informed her that I was from the Michigan DEQ Air Quality Division and showed her my identification. She informed me that they currently operate a lawn care service out of the building and that the building is used to store trucks and equipment there. Heather showed me the facility; my observations were consistent with her statements. I did not observe the permitted chicken incinerator; it appears that it has been removed.

Conclusion

It appears that Conrad Poultry Farm is no longer operating. The original permitted equipment has been removed. The facility is considered to be permanently closed and their permit will need to be voided by Permit Section.
