45-DAY EPA REVIEW

Individuals who commented on draft Acid Rain Permits during the 30-day public notice period may submit a petition to the United States Environmental Protection Agency (EPA) to object to the permit. Information on how to submit a petition to the EPA is available at the [EPA Title V Petitions website](#). The time period provided to petition the permit to EPA ends 60 days after EPA's 45-day review period ends (i.e., 105 calendar days after the specified start date of the EPA review). See AQD's [Rule 214\(8\)](#) for further information.

Information is included in chronological order, with those comment periods ending sooner at the end of the list, and those most recently listed at the top. The public comment period for initial or renewal ROPs has ended and the EGLE has proposed the following ROPs to the EPA for 45-day review:

DTE Electric Company – St. Clair Power Plant / Belle River Power Plant / Blue Water Energy Center – SRN: B2796

The Department is holding a public comment period from February 19, 2024 until March 20, 2024 on a draft renewal Acid Rain Permit.

FINAL TITLE V / ROPs

Information is included in chronological order, with those comment periods ending sooner at the end of the list, and those most recently listed at the top. The time period provided to petition an initial or renewal ROP to EPA ends 60 days after EPA's 45-day review period ends, (i.e., 105 calendar days after the specified start date of the EPA review). See AQD's [Rule 214\(8\)](#) for further information.

All plans referenced in final ROPs can be obtained from the appropriate [AQD District Office](#).

When an Acid Rain Permit is final, it is incorporated into the associated Renewable Operating Permit (ROP). All ROPs may be found on the AQD [Renewable Operating Permits / Title V website](#) through the sorted lists entitled "Source (Facility) Lists."
