**RE: Revision to the August 26, 2008 112(g) Case-by-Case MACT Analysis
Proposed ASCPC Boiler and Auxiliary Boiler
Application No. 341-07
Consumers Energy Company**

Dear Mr. Riddle:

On behalf of Consumers Energy Company (Consumers), NTH Consultants, Ltd. is submitting the attached revision to the August 26, 2008 case-by-case Maximum Achievable Control Technology (MACT) review for the proposed advanced supercritical pulverized coal (ASCPC) boiler. Specifically, the acid gas, organic and metal HAP sections have been revised to reflect technical data that has recently become available and discussions with MDEQ staff.

In addition, the July 28, 2008 MACT review for the auxiliary boiler has been updated to reflect a new MACT floor based on data that has recently become available.

If you have any questions concerning this amendment, please feel free to contact me at (517) 484-6900.

Sincerely

NTH Consultants, Ltd.

Jeffrey P. Jaros
Project Manager

Delbert Rector, P.E.
