Mr. Craig T. Duprey, Facility Area Manager
General Motors Technical Center – Warren
Mail Code: 480-101-240
6250 Chicago Road
Warren, Michigan 48090

Dear Mr. Duprey:

This letter is in reference to your Permit to Install application, identified as No. 160-11, State Registration Number B4049. The application was received on October 17, 2011, for thirteen diesel fueled emergency generators located at 30001 Van Dyke Road, Warren, Michigan.

Review of your application is complete. We have announced a public comment period as required by state and federal regulations, on the intent of the Michigan Department of Environmental Quality (MDEQ) to approve the permit. The public comment period began on January 20, 2012, and will end on February 22, 2012. A public hearing has been scheduled on February 27, 2012; however, it will be held only if requested by February 22, 2012. If a hearing is requested, the comment period will be extended until the close of the hearing. You may submit comments during the comment period and are encouraged to appear at the public hearing, if held, on behalf of your Permit to Install application.

After resolving any issues raised during the public comment period and/or the hearing, a final decision will be made on your permit application.

By law, construction of the proposed process should not begin until you receive an approved Permit to Install. *This letter is not an approved permit to install* and only references a proposed action on your application.

Enclosed are copies of the "Notice of Air Pollution Comment Period and Public Hearing," the "Fact Sheet," and the draft conditions regarding our analysis of your proposed project.

If you have any questions, please feel free to contact me. You may call me on February 23, 2012, to determine if a hearing was requested.

Sincerely,

Jennifer L. Bixby, Permit Engineer
Air Quality Division
Permit Section
517-335-6978
