Mr. Emanuel Manos, President
Detroit Salt Company, L.C.
12841 Sanders Street
Detroit, Michigan 48217

Dear Mr. Manos:

This letter is in reference to your Permit to Install (PTI) application identified as No. 318-98A (State Registration Number M4685) for an increase in the rock salt production rate and the installation and operation of a rock salt bagging process at the rock salt mining and processing facility located at 12841 Sanders Street, Detroit, Michigan.

The public comment period ended at the close of the public hearing held on May 23, 2017. Comments were received during the comment period and at the public hearing. After careful consideration of the issues and pursuant to the delegation of authority from the Director of the Michigan Department of Environmental Quality (MDEQ), I have approved PTI No. 318-98A.

As a part of this approval, the Air Quality Division (AQD) staff has revised conditions to the permit to address certain information received during the public participation process and the subsequent analysis of that information.

The AQD has prepared the enclosed Response to Comments (RTC) document, which provides our responses to comments received during the public comment period and at the public hearing. It also identifies the special conditions that have been modified and provides our rationale for modifying the proposed special conditions. These changes are listed in Section II of the RTC document.

This approval is based upon and subject to compliance with all administrative rules of the MDEQ and conditions stipulated in the enclosed supplement. Please review these conditions thoroughly so that you may take the actions necessary to ensure compliance with all of these conditions.

Also, PTI No. 318-98 has been voided because the equipment is now covered by PTI No. 318-98A.

To help us improve the service we provide our customers, we encourage you to complete a *Permit to Install Customer Service Survey* on the following Web page:
