DIRECTOR

December 19, 2011

Ms. Lillian Woolley  
DTE Energy  
One Energy Plaza Drive  
Detroit, Michigan 48226-1221

Dear Ms. Woolley:

This letter is in reference to your Permit to Install application, identified as No. 93-09B, State Registration Number B2816. The application was received on October 24, 2011, for a stack height modification on the five (5) existing diesel generators located at the Detroit Edison - Monroe Power Plant on 3500 East Front Street, Monroe, Michigan.

Review of your application is complete. We have announced a public comment period as required by state and federal regulations, on the intent of the Michigan Department of Environmental Quality (MDEQ) to approve the permit. The public comment period began on December 19, 2011, and will end on January 18, 2012. A public hearing has been scheduled on January 23, 2012; however, they will be held only if requested by January 18, 2012. If a hearing is requested, the comment period will be extended until the close of the hearing. You may submit comments during the comment period and are encouraged to appear at the information session and public hearing, if held, on behalf of your Permit to Install application.

After resolving any issues raised during the public comment period and/or the hearing, a final decision will be made on your permit application.

By law, construction of the proposed process should not begin until you receive an approved Permit to Install. *This letter is not an approved permit to install* and only references a proposed action on your application.

Enclosed are copies of the "Notice of Air Pollution Comment Period and Public Hearing," the "Fact Sheet," and the draft conditions regarding our analysis of your proposed project.

If you have any questions, please feel free to contact me. You may call me on 517-373-7088, to determine if a hearing was requested.

Sincerely,

Julie L. Brunner, P.E.  
Air Quality Division  
Permit Section
