Kalamazoo, MI 49009-5026

**SUBJECT: Request for Inclusion of PTI 78-11 Permit Conditions into
Renewable Operating Permit for SRN A7809**

Dear Ms. Clemens:

The MDEQ issued PTI 78-11 to Harsco Metals (Harsco) for the installation and operation of one stationary and two portable iron ore pellet screening operations on Zug Island in River Rouge, Michigan within the complex commonly referred to as U. S. Steel Great Lakes Works. The ore screening operations are within the jurisdiction of SRN A7809 and Harsco respectfully requests that the MDEQ incorporate the conditions from PTI 78-11 into the Renewable Operating Permit (ROP) for SRN A7809 when the ROP is reissued.

Ms. Katherine Koster in the MDEQ-AQD Detroit Office is currently in the process of assembling a draft ROP for SRN A7809. Ms. Koster requested the submittal of MDEQ Forms M-001 and C-001 requesting the addition of the PTI conditions into the ROP. Completed MDEQ Forms M-001 and C-001 are enclosed as required by MDEQ for the inclusion of minor modifications to existing ROPs.

If you have any questions regarding this request, please contact me at (313) 842-2120.

Sincerely,

Marcelino Martinez
Site Manager

Michigan Department Of Environmental Quality - Air Quality Division

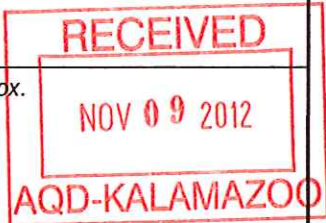

RENEWABLE OPERATING PERMIT
M-001: RULE 215 CHANGE NOTIFICATION OR
RULE 216 AMENDMENT/MODIFICATION APPLICATION

This information is required by Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, and the Federal Clean Air Act of 1990.
