**RENEWABLE OPERATING PERMIT
NOTICE OF AIR POLLUTION PUBLIC COMMENT PERIOD**

ROP No.
MI-ROP-
B2811-201X

The Department of Environmental Quality, Air Quality Division (AQD) is holding a public comment period until June 22, 2011, on the draft renewal of a Renewable Operating Permit (ROP) under consideration to be issued to Detroit Edison Trenton Channel Power Plant located at 4695 W. Jefferson Avenue in Trenton, Michigan. The facility's Responsible Officials are Dan Braker and Tom Tanciar, Plant Managers.

Major stationary sources of air pollutants are required to obtain and operate in compliance with an ROP pursuant to Title V of the federal Clean Air Act of 1990 and Section 5506(1) of Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended. The ROP is intended to simplify and clarify a facility's applicable requirements and compliance with them by consolidating all state and federal air quality requirements into one document. The proposed ROP will result in no emissions change at the facility.

Copies of the draft ROP and the Staff Report are available for inspection at the following locations or you may request a copy be mailed to you by calling or writing the District Office at the address and telephone number listed below:

All persons are encouraged to present their views on the draft permit. Persons wishing to comment or request a public hearing should submit written statements by June 22, 2011 to the attention of Jill C. Placco at the District Office referenced above. The decision maker for the permit is Christopher Ethridge, Acting Southeast Michigan District Supervisor.

If requested in writing by June 22, 2011, a public hearing may be scheduled.

Comments will also be accepted at the public hearing, if held. Persons needing accommodations for effective participation at the public hearing, if held, should contact Jill C. Placco at the District Office referenced above a week in advance to request mobility, visual, hearing, or other assistance.
