**RE: Tank 37 Degassing Event (EUTANK37DEGASSING) Notification
EES Coke Battery, LLC (SRN: P0408)
River Rouge, Michigan**

Dear Mr. Lamb:

EES Coke Battery, LLC (EES Coke) is submitting this notification to the Michigan Department of Environmental Quality (MDEQ) Air Quality Division (AQD) that temporary controlled degassing of the existing light oil tank (Tank 37) is scheduled to commence on September 22, 2017.

EES Coke was issued Permit to Install (PTI) No. 77-17 on September 11, 2017 for the temporary controlled degassing of the existing Tank 37 (EUTANK37DEGASSING) located at EES Coke's Byproducts Recovery Plant for internal tank integrity testing. A thermal oxidizer will be utilized to control vapor emissions from EUTANK37DEGASSING as required under PTI No. 77-17. Special Condition (SC) VII.1 of EUTANK37DEGASSING specifies that the permittee shall provide written notification to the AQD when tank degassing is scheduled to start, and that it shall be provided at least ten days in advance of commencement of tank degassing.

This letter serves as notification pursuant to PTI No. 77-17 that the temporary degassing event is scheduled to commence on September 22, 2017. EES Coke will also provide notification to AQD when tank degassing has been completed.

In addition, we are submitting an application for an administrative amendment pursuant to R336.1216(1)(a)(v) using the C-001 (Certification Form EQP 5773) and M-001 (Rule 215 Change Notification Rule 216 Amendment / Modification Application Form EQP 5775) forms attached to this submittal even though PTI No. 77-17 will be void per Special Condition IX.2. "This permit shall be terminated and will become void 30 calendar days after initial operation of the Tank #37 degassing operation." Note, that results of monitoring and recordkeeping are not available since the degassing event has not occurred. This information is still forthcoming.
