Real Alloy Specification and Real Alloy Recycling – SRN: N5957

The Department is holding a public comment period from April 9, 2018 until May 9, 2018 on a draft ROP renewal.

- [Public Notice](#)
- [Staff Report](#)
- [Draft ROP](#)
- [ROP Renewal Application](#)
- [Operation and Maintenance Plan](#)

The public comment period for initial or renewal ROPs has ended and the Department of Environmental Quality has proposed the following Renewable Operating Permits to the U.S. Environmental Protection Agency for 45-day review:

Those individuals who commented on initial or renewal draft ROPs during the 30-day public notice period may submit a petition to the U.S. Environmental Protection Agency to object to the permit. Information on how to submit a petition to the EPA is available at the following website: <https://www.epa.gov/title-v-operating-permits/title-v-petitions>. The time period provided to petition the permit to EPA ends 60 days after EPA's 45-day review period ends (i.e., 105 calendar days after the specified start date of the EPA review). See AQD's Rule 214(8) for further information. Information is also provided below regarding proposed actions that have gone directly to EPA review for modifications to existing ROPs.

Viking Energy of McBain, LLC – SRN: N1160

A proposed ROP renewal (EPA review began 8/13/2018).
