Regulatory Guide for the Michigan Fabricare Industry

In an effort to increase perchloroethylene and petroleum dry cleaners' and laundries' understanding of the state and federal regulations affecting their business, a group of representatives from a number of state agencies, in conjunction with the Michigan Institute of Laundering and Drycleaning (MILD), produced the **Regulatory Guide for the Michigan Fabricare Industry**. This workgroup consists of staff from the Environmental Assistance Division and the Dry Cleaning Program of the Drinking Water and Radiological Protection Division in the Michigan Department of Environmental Quality; the Safety Education and Training Division (MIOSHA Safety), the Division of Occupational Health (MIOSHA Health), and the Bureau of Construction Codes in the Michigan Department of Consumer and Industry Services; and the Fire Marshal Division of the Michigan State Police.

This guide contains a comprehensive description of all environmental, MIOSHA health and safety, construction code, and fire prevention regulations the fabricare industry must comply with on a day-to-day basis. The guide contains useful forms dry cleaners can use to comply with some of the recordkeeping requirements, names and phone numbers of the regulatory programs, ordering information for useful publications distributed by those programs, and a useful index that will simplify the regulatory maze.

For more information, contact the Environmental Assistance Center, Michigan Department of Environmental Quality, at 800-662-9278.

The cost for the **Regulatory Guide for the Michigan Fabricare Industry** is \$20.

To purchase a guide, mail the completed Order below, along with a check payable to the **State of Michigan**, to:
