

STOP THE LEAK!

Quit Wasting Money, And The Environment

FREE ENGINEERING ASSISTANCE

The Retired Engineer Technical Assistance Program (RETAP) offers a confidential, non-regulatory evaluation of waste reduction and operation efficiency opportunities at your facility. It's **FREE, VOLUNTARY**, and could save you **THOUSANDS** of dollars **ANNUALLY!**

Recommendations for pollution prevention may qualify for the low-interest loan program

LOW INTEREST LOANS

Small Business Pollution Prevention Loans of up to \$100,000 at 5% interest or less are available to implement pollution prevention for waste reduction, energy efficiency, and water conservation projects.

SAVE on interest and operational costs—a must for any successful small business!
