DEADLINE FOR COMMENTS REGARDING NOTICE OF PROPOSED AMENDMENT TO CONSENT DECREE INVOLVING COPPER RANGE COMPANY, ONTONAGON COUNTY. Comments will be taken through April 25, 2003, on a proposed consent decree amendment concerning the State of Michigan vs. Copper Range Company (Copper Range). A consent decree dated October 27, 1997, required Copper Range to perform a DEQ-approved closure of its former underground solution mine and implement a DEQ-approved remedial action plan (RAP) pursuant to Part 201, Environmental Remediation, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended. The proposed modifications to the Decree provide for an alternative financial assurance mechanism and do not modify any obligations of Copper Range to perform response activities. The modified Decree will allow Copper Range to eliminate an existing \$3 million letter of credit while requiring a continuation of the financial assurance requirements of an existing corporate guarantee provided by Copper Range's parent corporation, Inmet Mining Company. The modifications also require Copper Range to fund a trust fund for the long-term management of brine contaminated groundwater at the facility. The financial assurance mechanisms are meant to assure the obligations of Copper Range to implement both the DEQ-approved mine closure and RAP in accordance with law. Any comments should be sent to James L. Stropkai, Assistant Attorney General, on or before 5:00 p.m., April 25, 2003. Any persons wishing to object to amending the consent decree should be present at the hearing on the joint motion for entry of the consent decree scheduled for hearing on April 30, 2003, at 10:00 a.m. in Ingham County Circuit Court, Mason Courthouse, Mason, Michigan 48854. Information Contact: **James L. Stropkai**, Department of Attorney General, 517-373-7540, or E-mail at stropkaij@michigan.gov.

21ST ANNUAL MICHIGAN RECYCLING COALITION CONFERENCE AND BUSINESS EXPO, RADISSON HOTEL, KALAMAZOO. This year's theme is "Economic Progress through Environmental Responsibility." Speakers include: Lisa Skumatz, Ph.D., on how to jump-start community recycling programs; Amy Butler, Chief of DEQ's Environmental Science and Services Division, on how the DEQ will support recycling under the Granholm administration; and Representative Jerry Kooiman on his House Bill to place a surcharge on garbage entering Michigan landfills. Other sessions include breakouts on topics such as ISO 14001, EMS, and waste reduction. Breakouts include many case studies and how-to examples. The conference also includes tours of Graphics Packaging in Kalamazoo and Drug & Lab Disposal in Plainwell. Once again, the MRC conference will feature a live auction. Conference planners are now accepting exhibitor registrations and registrations for the live auction. The DEQ's Environmental Science and Services Division will have a table in the exhibitor area. JUNE 2003

ANNUAL WASTEWATER REPORT (AWR) GUIDANCE WORKSHOPS. The AWR Program and the Critical Materials Register (CMR) are administered by the Michigan Department of Environmental Quality (DEQ). The AWR program was established pursuant to Part 31, Water Resources Protection, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (NREPA), Section 3111. Under this program, the use of materials listed on the Critical Materials Register (CMR) above threshold amounts must be reported. The wastewater report includes the quantities of critical materials used in, and incidental to, manufacturing processes, including by-products and waste products. The AWR workshop is designed for companies who discharge wastewater to the waters of the state or to a sanitary sewer system or who use chemicals listed on the Critical Materials Register (CMR) and discharge them into wastewater or residuals transferred off-site for further treatment. Register on-line at www.michigan.gov/deq and click on the Training & Workshops button. JULY 2003

2003 HIGGINS LAKE ENVIRONMENTAL SCHOOL. This is an event for students, teachers, 4-H and scout leaders, and all who want to learn more about environmental education, natural resources and related topics. The 2003 Higgins Lake Environmental School summer program is sponsored by the Michigan Department of Environmental Quality, in cooperation with Central Michigan University, Eastern Michigan University, Wayne State University and Western Michigan University. Each university brings a special emphasis to the program by providing resource people, materials, lectures, field trips, and discussions to provide participants with an understanding of critical environmental concepts and issues. Scholarships are available from a variety of organizations.
