

# Soy-based Biodiesel Supplier/Retailer List

Published by:  
Michigan Soybean  
Promotion Committee  
PO Box 287  
Frankenmuth, MI 48734  
Phone: 989.652.3294  
Visit [www.michigansoybean.org](http://www.michigansoybean.org)

## Soy-based Biodiesel FACTS

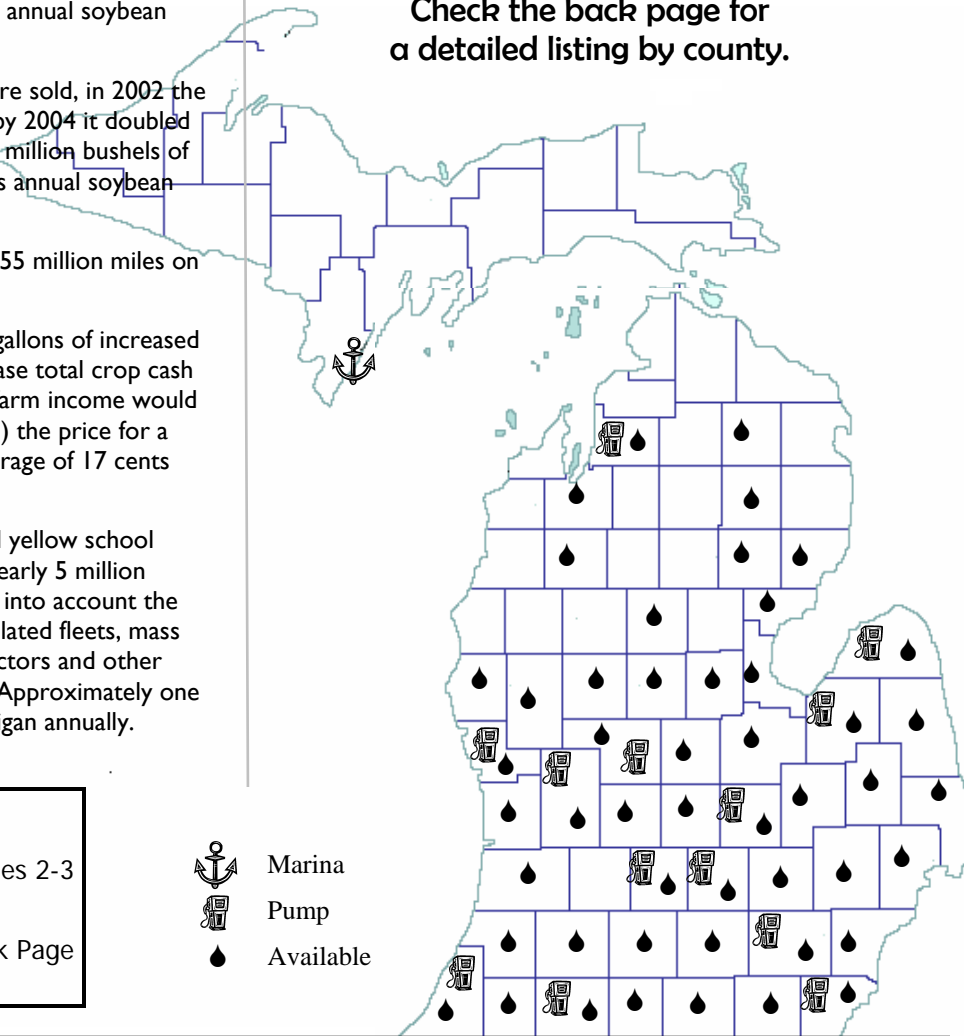

- ✓ Follow #2 diesel fuel guidelines for cold weather applications.
- ✓ The **ONLY** alternative fuel that has completed the EPA's Tier I and Tier II Health Effects testing. Tier I tested biodiesel's significant reductions in most regulated and unregulated emissions. Tier II testing demonstrated biodiesel's non-toxic effect on health.
- ✓ ASTM (American Society of Testing and Materials) has issued fuel standard specifications for biodiesel (D6751).
- ✓ For every unit of energy needed to produce biodiesel, 3.2 units of energy are gained (the highest energy balance of any fuel)!
- ✓ Americans use 55 billion gallons of diesel fuel each year. By replacing just 1% of that petroleum diesel with homegrown soy biodiesel, we would utilize 366 million bushels of U.S. soybeans (more than 5 times Michigan's annual soybean production)!
- ✓ In 1999, 500,000 gallons of biodiesel were sold, in 2002 the number grew to 15 million gallons and by 2004 it doubled to 30 million gallons (or the oil from 20 million bushels of soybeans). That is about 1/4 of Michigan's annual soybean production!
- ✓ Over 500 fleets have logged more than 55 million miles on biodiesel...and still counting.
- ✓ A USDA study indicates 1) 200 million gallons of increased annual soybean oil demand would increase total crop cash receipts by \$5.2 billion by 2010, 2) net farm income would increase by \$300 million per year, and 3) the price for a bushel of soybeans would rise by an average of 17 cents annually during the 10-year period.
- ✓ By using B20, Michigan's diesel powered yellow school buses alone would utilize the oil from nearly 5 million bushels of soybeans. This does not take into account the many other potential users such as regulated fleets, mass transit buses, diesel trucks and cars, tractors and other heavy duty equipment as well as semis. Approximately one billion gallons of diesel are used in Michigan annually.

Check out the facts on biodiesel at [www.biodiesel.org](http://www.biodiesel.org)

Droplets show biodiesel is available in the county. Is yours listed?
