

Soil Erosion and Sedimentation Control Training Manual

**Michigan Department of Environmental Quality
Water Bureau
Soil Erosion and Sedimentation Control Program**

Soil Erosion and Sedimentation Control Training Manual

Dick Mikula and Hope Croskey, P.E.

Additional Credits

Units 1-5 John Warbach, Ph.D., Planning and Zoning, Inc.
Unit 5 Sean McNamara, MDEQ
Unit 7 Marlio Lesmez, Ph.D., MDEQ
Unit 9 Hubbell, Roth & Clark, Inc.
Unit 12 Mark Fife and Steve Houtteman, MDEQ
Units 1-12 Cheryl Gates, MDEQ

The Michigan Department of Environmental Quality (MDEQ) will not discriminate against any individual or group on the basis of race, sex, religion, age, national origin, color, marital status, disability, or political beliefs. Questions or concerns should be directed to the MDEQ Office of Personnel Services, PO Box 30473, Lansing, MI 48909.

TABLE OF CONTENTS

Unit One: Erosion and Sedimentation Goals and Principles

Introduction	1-1
Background	1-1
Definitions.....	1-3
Erosion Process	1-4
Geologic and Accelerated Erosion	1-4
Major Categories of Erosion	1-5
Physical Factors Affecting Erosion	1-7
The Sedimentation Process	1-9
Principles and Strategies	1-10
Summary.....	1-12
Unit One Review	1-13
Answers to Unit One Review.....	1-15

Unit Two: Controlling Runoff and Erosion on Construction Sites

Introduction	2-1
Construction Practices to Control Runoff	2-2
Scheduling.....	2-2
Seeding and Mulching	2-3
Preserve Vegetative Buffers.....	2-3
Surface Roughening.....	2-3
Diversions.....	2-4
Grade Stabilization Structures	2-5
Check Dams.....	2-7
Channel and Slope Stabilization.....	2-9
Practices to Control Wind Erosion.....	2-11
Windbreaks	2-12
Watering	2-12
Chemical Binders	2-13
Maintenance.....	2-13
Summary.....	2-14
Unit Two Review	2-15
Answers to Unit Two Review.....	2-17

Unit Three: Vegetative Stabilization

Introduction	3-1
Critical, Non-critical and Sensitive Areas	3-1
Vegetative Stabilization	3-2
Temporary Vegetative Stabilization	3-2
Permanent Vegetative Stabilization	3-3
Selecting Plant Materials	3-5
Climate	3-5
Soils	3-6
Slopes	3-7
Site Use and Maintenance	3-7
Soil Preparation	3-8
Soil Additives	3-8
Topsoil	3-9
Correction of Droughty and Wet Soils	3-10
Seedbed Preparation	3-10
Methods to Establish Vegetation	3-11
When to Plant	3-13
Mulching	3-14
Maintenance	3-17
Summary	3-18
Unit Three Review	3-19
Answers to Unit Three Review	3-21
Appendix 3A: Guidelines for Vegetative Erosion Control	Appendix 3A-1

Unit Four: Controlling Sediment

Introduction	4-1
Vegetative Sediment Control	4-1
Structural Sediment Control	4-3
Perimeter Barriers	4-3
Diversions	4-5
Rock Construction Exits	4-5
Sedimentation Basins	4-6
Storm Drain Inlet Protection	4-9
Summary	4-11
Unit Four Review	4-12
Answers to Unit Four Review	4-14
Appendix 4A: Filter Strip	Appendix 4A-1

Unit Five: Developing a SESC Plan and Inspecting the Installation

Introduction	5-1
Soil Erosion and Sedimentation Control Plans.....	5-2
Required Information	5-3
Analysis	5-7
Inspections	5-9
Summary.....	5-11
Unit Five Review	5-13
Answers to Unit Five Review.....	5-14

Unit Six: Legislation and Administrative Rules

Legislation: Part 91, Soil Erosion and Sedimentation Control	6-1
324.9101 Definitions; A to W.	6-1
324.9104 Rules; availability of information.	6-3
324.9105 Administration and enforcement of rules; resolution; ordinance; interlocal agreement; review; notice of results; informal meeting; probation; consultant; inspection fees; rescission of order, stipulation, or probation.	6-3
324.9106 Ordinances.	6-6
324.9107 Notice of violation.	6-8
324.9108 Permit; deposit as condition for issuance.	6-8
324.9109 Agreement between public agency or county or municipal enforcing agency and conservation district; purpose; reviews and evaluations of agency's programs or procedures; agreement between person engaged in agricultural practices and conservation district; notification; enforcement.	6-8
324.9110 Designation as authorized public agency; application; submission of procedures; variance; approval.	6-9
324.9112 Earth change; permit required; effect of property transfer; violation; notice; hearing; answer; evidence; stipulation or consent order; final order of determination.....	6-11
324.9113 Injunction; inspection and investigation... ..	6-12
324.9114 Additional rules.	6-13
324.9115 Logging, mining, or land plowing or tilling; permit exemption; "mining" defined.... ..	6-13
324.9115a Earth change activities not requiring permit; violations	6-14
324.9116 Reduction of soil erosion or sedimentation by owner.. ..	6-14

324.9117	Notice of determination.....	6-15
324.9118	Compliance; time.....	6-15
324.9119	Entry upon land; construction, implementation, and maintenance of soil erosion and sedimentation control measures; cost... ..	6-15
324.9120	Reimbursement of county or municipal enforcing agency; lien for expenses; priority; collection and treatment of lien.....	6-16
324.9121	Violations; penalties.....	6-16
324.9122	Severability.....	6-17
324.9123	Training program; certificate; fees....	6-17
324.9123a	Soil erosion and sedimentation control training fund; creation; disposition of funds; lapse; expenditures.	6-18
Unit Six Legislation Review		6-19
Answers to Unit Six Legislation Review		6-21
Part 91 Administrative Rules		6-23
R 323.1701	Definitions.....	6-23
R 323.1702	Earth change requirements generally.....	6-24
R 323.1703	Soil erosion and sedimentation control plan requirements....	6-25
R 323.1704	Permit requirements.....	6-25
R 323.1705	Permit exemptions and waivers.....	6-26
R 323.1706	Application for permit.....	6-26
R 323.1707	Application review and permit procedures.....	6-27
R 323.1708	Soil erosion and sedimentation control procedures and measures generally.....	6-27
R 323.1709	Earth change requirements: time; sediment removal; design installation, and removal of temporary or permanent control measures.....	6-28
R 323.1710	Standards and specifications.....	6-29
R 323.1711	Building permits.....	6-29
R 323.1712	Enforcement.....	6-29
R 323.1713	Periodic review.....	6-30
R 323.1714	Availability of documents.....	6-30
Unit Six Administrative Rules Review		6-31
Answers to Unit Six Administrative Rules Review		6-33

Unit Seven: Soils and Runoff

Introduction	7-1
Soil and Runoff Characteristics	7-2
Soil Texture	7-2
Natural Drainage	7-5
Soil Infiltration and Transmission Rates	7-6
Surface Characteristics	7-7
Rainfall Duration and Frequency	7-9
Estimating Runoff Volume and Peak Discharge.....	7-11
Runoff Problem #1: Undeveloped Site	7-15
Runoff Problem #2: Site under Construction.	7-16
Runoff Problem #3: Developed Site	7-18
Application of Runoff Calculations	7-19
Summary.....	7-20
Appendix 7A: Hydrologic Soil Groups for Michigan Soils	Appendix 7A-1
Appendix 7B: Practice Problems	Appendix 7B-1
Practice Problems A, B, and C	Appendix 7B-1
Answers to Practice Problems A, B and C.....	Appendix 7B-4

Unit Eight: Revised Universal Soil Loss Equation (RUSLE)

Introduction	8-1
Practice Problem A: Calculating Potential Soil Loss	8-5
Practice Problem B: Calculating Potential Soil Loss	8-6
Answers to Practice Problem A.....	8-7
Answers to Practice Problem B.....	8-8
Appendix 8A: Soil Erodibility “K _w ” Values for Michigan Soils.....	Appendix 8A-1

Unit Nine: Sedimentation Basins

Introduction	9-1
The Difference between Storm Water Basins and Sedimentation Basins	9-2
Reviewing Sedimentation Basin Design Components	9-2
Building Site Conditions.....	9-4
Sedimentation Basin Location	9-5
Sedimentation Basin Size.....	9-5
Sedimentation Basin Configuration	9-7
Sedimentation Basin Structures	9-8
Other Design Considerations	9-10
Sedimentation Basin Maintenance	9-10

Sample Problems	9-11
Problem A.....	9-11
Problem B.....	9-13
Problem C	9-13
Appendix 9A: Glossary.....	Appendix 9A-1
Appendix 9B: Equations	Appendix 9B-1

Unit Ten: Diversions

Introduction	10-1
Design Considerations	10-1
Soils.....	11-1
Diversion Design	10-2
Appendix 10A: NRCS Conservation Standards for Diversions	Appendix 10A-1

Unit Eleven: Map Interpretation and Plan Development and Review

Introduction	11-1
Map and Aerial Photo Evaluation	11-2
U.S. Geological Survey (USGS) Topographic Maps	11-2
Topographic Surveys.....	11-5
County Soil Survey	11-8
Aerial Photography	11-9
Field Evaluation.....	11-10
On-Site Field Visits	11-10
Techniques and Tools for Field Review.....	11-10
Other Field Observation Techniques	11-11
Critical Erosion Areas	11-11
Plan Development and Review.....	11-11
Plan Development	11-12
Plan Review.....	11-12
Other Considerations.....	11-14
Permit Issuance and Program Administration.....	11-14
Summary.....	11-16
Appendix 11A: Construction and SESC Measure	
Installation Schedule for Small Projects.....	Appendix 11A-1
Appendix 11B: Construction and SESC Measure	
Installation Schedule for Large Projects	Appendix 11B-1

Unit Twelve: Michigan’s Stormwater Program for Construction Sites

Introduction 12-1

Rules and Regulations 12-2

 Federal Clean Water Act 12-2

 Federal Storm Water Regulations 12-2

 Natural Resources and Environmental Protection Act..... 12-2

 Certified Storm Water Operator 12-4

 Site Stabilization and Permit Termination..... 12-6

Summary..... 12-8

Unit Twelve Review..... 12-9

Answers to Unit Twelve Review 12-10

Soil Erosion Inspection Log..... 12-11

Appendix 12A: Notice of Coverage Appendix 12A-1

Appendix 12B: Notice of Termination Appendix 12B-1
