

DEPARTMENT OF ENVIRONMENTAL QUALITY
AIR QUALITY DIVISION
ACTIVITY REPORT: On-site Inspection

A433164536

FACILITY: UNC JOHNSON TECHNOLOGY INC		SRN / ID: A4331
LOCATION: 2034 LATIMER DR, MUSKEGON		DISTRICT: Grand Rapids
CITY: MUSKEGON		COUNTY: MUSKEGON
CONTACT:		ACTIVITY DATE: 08/18/2022
STAFF: Scott Evans	COMPLIANCE STATUS: Compliance	SOURCE CLASS: MINOR
SUBJECT: On-site inspection to assess air quality compliance.		
RESOLVED COMPLAINTS:		

On August 18, 2022 State of Michigan Department of Environment, Great Lakes, and Energy Air Quality Division staff member Scott Evans conducted an unannounced, on-site visit of UNC Johnson Technology Inc. located at 2034 Latimer Dr. in Muskegon, Michigan, to assess compliance with all applicable air quality rules and regulations. Upon arrival at the facility location, it was discovered that UNC Johnson is no longer in operation at the facility. Since the last inspection, it appears that the company was purchased by GE, which then sold the facility and moved to a new location. The facility presently located at the former UNC Johnson location is Northern Boiler Mechanical Contractors, a company that conducts boiler installation, repair, and inspection services at off-site locations.

At this time, it appears as though there are no air emission sources at the facility. As such, this facility is not presently in need of Air Quality Division oversight and can be closed out.
