 AIR QUALITY DIVISION
 ACTIVITY REPORT: Self Initiated Inspection

A647830270

FACILITY: NORTHFORK REDI-MIX INC		SRN / ID: A6478
LOCATION: 620 DEER ST, MANISTIQUE		DISTRICT: Upper Peninsula
CITY: MANISTIQUE		COUNTY: SCHOOLCRAFT
CONTACT: ROBERT CASTEEL, MANAGER		ACTIVITY DATE: 07/14/2015
STAFF: Joel Asher	COMPLIANCE STATUS: Compliance	SOURCE CLASS: MINOR
SUBJECT: Concrete batch plant.		
RESOLVED COMPLAINTS:		

On 6/14/2015 I conducted an unannounced inspection of this facility. My contact was the plant manager Mr. Bob Casteel.

The facility continues to batch concrete. Mr. Costeel estimated they have produced approximately 700 cubic yards of concrete this year.

The facility has one silo controlled with a baghouse. All bags (11) in the baghouse were changed at the end of last year's operating season. The safety pop-off valve on top of the silo is checked after every delivery of cement. The baghouse is also checked after every delivery. The facility typically receives 2 loads of cement each week. Old bags that have been replaced are kept as spares in the event a new bag fails. The spare bags were observed in the shop.

Dust from the drive is controlled with water application as needed.

No complaints have been received regarding this facility. At the time of this inspection, the facility appears to be in compliance with the Air Pollution Control Rules.
