ENFORCEMENT NOTICE

In the matter of:

Solutia, Inc.
5100 W. Jefferson Avenue
Trenton, Michigan 48183

SRN: B2155, Wayne County

ATTENTION: Mr. Charles Anderson

This letter is to advise you of the commencement of escalated enforcement action against Solutia, Inc. This letter follows the November 23, 2015 Violation Notice issued by the Michigan Department of Environmental Quality (MDEQ), Air Quality Division (AQD) which detailed violations of Michigan Administrative Code R 336.1205 and Renewable Operating Permit No. MI-ROP-B2155-2009a.

The alleged violations against Solutia, Inc. are federally enforceable and are considered High Priority Violations (HPVs) by the United States Environmental Protection Agency (EPA). The HPV designation means that the EPA places a priority on enforcing the regulations governing this violation and on formally resolving alleged violations of this type. The AQD is required to report all HPVs to the EPA, pursuant to the state's grant commitments with the EPA and the state's delegated enforcement authority of the federal Clean Air Act.

The AQD is hereby providing Solutia, Inc. with an opportunity to demonstrate compliance, present factual information in writing that should be considered regarding the violations and meet to discuss options for satisfactorily resolving the violations. This proposed resolution would include, among other things, a compliance schedule and an appropriate monetary penalty. Please contact me or Thomas Hess, Air Quality Division Chief at 517-284-6767 no later than Monday, April 11, 2016, to schedule a meeting to discuss the resolution of this matter.

Be advised that failure to respond to this Enforcement Notice in a timely manner and adequately resolve or address the cited violations may result in further enforcement proceedings including, but not limited to, referral of the matter to the Michigan Department of Attorney General (MDAG) for commencement of civil litigation. Be further advised that this Enforcement Notice does not preclude or limit the MDEQ's ability to initiate any other enforcement action under federal or state law as appropriate.

Sincerely,

Jason Wolf
Enforcement Unit
Air Quality Division
