SUBJECT: Targeted Inspection		
RESOLVED COMPLAINTS:		

May 4, 2015

On May 4, 2015, a phone conversation was held with Mr. Rick Keegan, General Manager of Beta Steel Group. Mr. Keegan stated that Beta Steel Group is no longer in operation at 3401 Martin Road, Detroit, Michigan. According to Mr. Keegan, all the equipment has been relocated to a new location in Macomb County.

May 18, 2015

On May 18, 2015 at approximately 3:00 PM, Department of Environmental Equality (DEQ) Air Quality Division (AQD) inspectors Mr. Todd Zynda and Ms. Kerry Kelly arrived at 3401 Martin Road. The building was secured and did not appear to be occupied. A parking lot security guard stated that the building is empty and he is currently waiting for potential buyers to come to inspect the property. The parking lot and storage yard were empty. During the previous visit while the company was in operation at this address, the storage yard contained steel wire coils that are used in steel drawing operations. Based on the inspection of the premises, it appears that the Beta Steel Group has vacated the building and is no longer in operation at this address.

Conclusion

There are no permits associated with 3401 Martin Road. There is currently no activity at the unoccupied address. The source is considered to be in compliance for the reason that no air emissions activity remains at this address. The source status will be entered as permanently closed.
