Dear Mr. Smith:

SECOND VIOLATION NOTICE

On September 29 and October 1, 2014, the Department of Environmental Quality (DEQ), Air Quality Division (AQD), conducted investigations in response to citizen complaints regarding a fallout incident in Melvindale, which is believed to have occurred sometime overnight between September 25 and September 26, 2014. The scope of the investigations included the operations at Edw. C. Levy Plant 6 located at 13800 Mellon Street, Detroit, Michigan. The purpose of the investigations was to determine Edw. C. Levy's compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the administrative rules; and Renewable Operating Permit (ROP) No. MI-ROP-B4243-2009.

On November 7, 2014, the AQD sent the company a Violation Notice citing a violation discovered as a result of the inspection and requested your written response by November 28, 2014. A copy of that letter is enclosed for your reference. As of this date, we have not received your response.

Please be advised that failure to respond in writing and identifying actions the company will take or has taken to resolve the cited violation may result in escalated enforcement action by the AQD. Please provide the information requested in our November 7, 2014 letter by December 26, 2014, which corresponds to 14 days from the date of this letter.

Be further advised that issuance of this Violation Notice does not preclude or limit the DEQ's ability to initiate any other enforcement action under state or federal law as appropriate.
