Dear Collin Rankin:

**VIOLATION NOTICE**

On October 10, 2024, the Department of Environment, Great Lakes, and Energy (EGLE), Air Quality Division (AQD), conducted a complaint investigation near Korex Corporation located at 50000 Pontiac Trail, Wixom, Michigan. The purpose of this investigation was to investigate recent complaints which we received on 10/7/2024 and 10/8/2024, regarding powerful detergent odors attributed to Korex Corporation's operations.

During the inspection, staff observed the following:

Process Description	Rule/Permit Condition Violated	Comments
Manufacturing Operations at Korex	PTI 539-96, Special Condition 3	Visible emissions were observed coming from the facility on 10/10/2024
Manufacturing Operations at Korex	Rule 336.1901	A distinct and definite objectional odor (levels 3 and 4) was detected downwind from the facility due to the manufacturing operations at Korex Corporation

In the professional judgment of AQD staff, the odors that were observed were of sufficient intensity, frequency and duration so as to constitute a violation of Rule 901 of the administrative rules promulgated under Act 451.

The AQD staff detected strong detergent/soapy odors in a recreational and commercial area approximately 700-1500 feet downwind from Korex Corporation.
