<b>SUBJECT:</b> FY24 facility inspection for FCE		
<b>RESOLVED COMPLAINTS:</b>		

### FACILITY DESCRIPTION

On Wednesday August 21, 2024, Jodi Lindgren of the Department of Environmental, Great Lakes, and Energy (EGLE) – Air Quality Division (AQD) conducted a field inspection of Lambda Energy Resources, LLC (Lambda) – Manistee Sulfur Plant (B6013) located at 4000 Fisk Road, Manistee, Manistee County, Michigan, 49660. The facility was not operating at the time of the inspection.

During the inspection, no equipment was operational. Per Lambda and AQD records, the facility was shutdown indefinitely in December 2019. Due to the facility's nonoperational status, there were no records to review nor equipment operation to observe. Lambda indicated that they intend to permanently decommission all the equipment prior to submitting a request to void PTI 89-15A.
