

DEPARTMENT OF ENVIRONMENTAL QUALITY  
AIR QUALITY DIVISION  
ACTIVITY REPORT: Self Initiated Inspection

B603228110

FACILITY: MARKWEST MICHIGAN PIPELINE LLC - MANISTEE STATION		SRN / ID: B6032
LOCATION: SCHOEDEL RD, MANISTEE		DISTRICT: Cadillac
CITY: MANISTEE		COUNTY: MANISTEE
CONTACT:		ACTIVITY DATE: 12/10/2014
STAFF: Caryn Owens	COMPLIANCE STATUS: Compliance	SOURCE CLASS: MINOR
SUBJECT: Stopped by, when in the area, to see what this site looked like since the PTI was voided, but still operating. No tanks were on site, everything is underground, except for the hose to unload semi-trucks.		
RESOLVED COMPLAINTS:		

On December 10, 2014, Ms. Caryn Owens of the DEQ-AQD stopped by the Markwest Michigan Pipeline – Manistee Station (B6032). A PTI was voided in October 26, 2006, but the facility still has an “operating” status in the DEQ-AQD’s Michigan Air Compliance and Enforcement System (MACES), so the DEQ wanted to see what operations were occurring at the site. The site consisted of a half circle drive with a hose to unload semi-trucks of petroleum products. The facility contains no buildings or above ground storage tanks. During the inspection, the facility was kept tidy, and no trucks were present. The weather conditions were sunny, approximately 25°F and calm winds. No odors were present during the inspection.
