AIR QUALITY DIVISION
ACTIVITY REPORT: On-site Inspection

B664167757

FACILITY: ALLIED CONCRETE PRODUCTS INC		SRN / ID: B6641
LOCATION: 1928 JAMES SAVAGE RD, MIDLAND		DISTRICT: Bay City
CITY: MIDLAND		COUNTY: MIDLAND
CONTACT:		ACTIVITY DATE: 06/14/2023
STAFF: Benjamin Witkopp	COMPLIANCE STATUS:	SOURCE CLASS: MINOR
SUBJECT: Inspection of concrete batch plant		
RESOLVED COMPLAINTS:		

On June 14, 2023, Ben Witkopp of the Department of Environment, Great Lakes, and Energy (EGLE) - Air Quality Division (AQD) went to 1928 James Savage Road, Midland, Michigan to check the status of Allied Concrete Products.

There weren't any documents to review as a hardcopy file did not exist for the company. Electronic records showed the facility had permit 315-94 but it was voided. Upon reaching the location, the site was discovered to now be a vacant parcel. An internet search revealed a potential alternate address of 921 Jefferson. Though that location had structures on site, it too was essentially vacant and clearly no concrete batch plant existed.

The company is considered closed.
