The purpose of this inspection was to determine Trendway Corporation's compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the Air Pollution Control Rules; and the conditions of Permit to Install (PTI) number 226-98.

During the inspection, staff observed the following:

Process Description	Rule/Permit Condition Violated	Comments
Rack Burn-off Oven	Rule 201	Failure to obtain a PTI prior to installation.

During this inspection, it was noted that Trendway Corporation had installed and commenced operation of unpermitted equipment at this facility. The AQD staff advised Trendway Corporation on June 22, 2022, that this is a violation of Rule 201 of the administrative rules promulgated under Act 451.

A program for compliance may include a completed PTI application for the rack burn-off oven. An application form is available by request, or at the following website: www.michigan.gov/air.

Be advised that Rule 201 requires that a permit be obtained prior to installation, construction, operation, reconstruction, relocation, or alteration of any process or process equipment which may be a source of an air contaminant.

Please initiate actions necessary to correct the cited violation and submit a written response to this Violation Notice by August 26, 2022 (which coincides with 21 calendar days from the date of this letter).
