SUBJECT: Follow up on old PTIs issued to Upper Peninsula Ship Building Company		
RESOLVED COMPLAINTS:		

A follow up on old PTIs issued to Upper Peninsula Ship Building Company (UPSBC) was conducted. Records show 3 active permits.

PTI #649-80 was issued for shot blasting equipment on 10/14/1980. PTI #650-80 was issued for welding processes used building tugs and barges on 10/14/1980. PTI #651-80 was issued for spray painting processes on 2/27/1981.

On 10/3/2016 I visited this site. I talked with Mr. Guy Stolberg who works for Lake Shore Systems Inc., the facility now located at this site. Mr. Stolberg stated the company was recently purchased from Laker Shore Inc. They are a fabricating shop with no uncontrolled emissions to the outside air. UPSBC has been out of business for many years. Any equipment used for the permitted processes has been long removed.

A note will be sent to Ms. Sue Thelen of the Permit Section requesting to void PTI #649-80, PTI #650-80, and PTI #651-80.
