Activity Date	Activity Type	Compliance Status	Comments
09/10/2018	Scheduled Inspection	Compliance	FY 2018 Scheduled Inspection
05/16/2018	MAERS	Compliance	2017 MAERS AUDIT: The report was received on 3/9/2018. The facility did not operate in 2017 reporting zero emissions. According to AQD records, this terminal has not operated in several years. The oldest record in MACES is from 3/14/2011 which reported that the facility was not in operation in 2010. However, there are still active permits. Buckeye has to remove all NSPS subject equipment from the site or make the equipment inoperable to eliminate the payment of the annual air quality fees. Also, all active permits need to be voided. This information was communicated to the facility representatives and to Nicole Brower (consultant for Buckeye-Taylor) in an email dated 3/14/15 from the Detroit District Supervisor, Wilhemina McLemore. The email is saved in the MAERS folder for this facility.
