Subject: Response to June 21, 2018 Letter of Violation

Dear Ms. Koster:

In a letter dated June 21, 2018, The Air Quality Division (AQD) of Michigan's Department of Environmental Quality issued a Violation Notice to The University of Michigan's Dearborn Campus (UM-D) for commencing construction of one temporary and three permanent boilers at the Engineering Laboratories Building (ELB) without obtaining a permit to install. The enclosed Boilers Exemption Analysis document was completed prior to commencing construction of the temporary and permanent boilers. This document summarizes the reasons that installation of the temporary and new boilers is exempt from the permit to install requirements of R 336.1201 of the Michigan Administrative Code.

If you have any questions or need any additional information, please call me.

Sincerely,

Carol L. Glick, P.E.
Executive Director for Facilities Operations
University of Michigan-Dearborn

Enclosure
