SUBJECT: Self initiated minor inspection- old incinerator permit		
RESOLVED COMPLAINTS:		

On August 1, 2019 I inspected the former Rogers City Hospital in Rogers City. This facility has an active permit, 25-68I, for an incinerator.

The building is still present but is not in use at this time. I met Mr. John Kieliszewski, the Maintenance Supervisor. He told me it is now known as Medilodge of Rogers City, although there are no operations going on there. In 1991 it was sold to Tender Care and has had other owners since.

He told me he had been working there since it was the hospital. The incinerator was removed long ago. He doesn't know exactly when but it was approximately in the mid 1990s.

I will notify Permit Section to void the permit.
